SUMMARY

Informatics graduate with hands-on experience in web application development, warehouse digitalization, and cross-functional operations across manufacturing and logistics environments. Comfortable working at the intersection of technology and real-world operations, contributing to both technical implementation and operational coordination. Holds a professional BNSP Software Engineer certification (Level 6) and a TOEFL score of 550.

EDUCATION

Universitas Bhayangkara Jakarta Raya | 2021 – 2025

Bachelor of Computer Science (S.Kom.) – Informatics | GPA: 3.38 / 4.00

SMK Karya Bangsa | 2018 – 2021

Senior High School – Light Vehicle Engineering

WORK EXPERIENCE

Intern – Warehouse Digitalization | PT Oneject Indonesia

November 2025 – May 2026 • Cikarang, Bekasi

- Contributed to the development and implementation of the e-Docking Control System (e-DCS), a web-based warehouse management platform built with Laravel 11, PostgreSQL, React, and TailwindCSS.
- Implemented application logic across multiple modules including vendor booking, gate allocation, slot scheduling, and real-time status monitoring with WebSocket-based notifications.
- Developed and maintained backend features using Laravel (controllers, models, routes) and integrated with SAP for operational data flow.
- Built and refined frontend components using Blade templates, Vanilla JS, and React for both internal staff and vendor-facing portals.
- Coordinated with the warehouse team to validate system behavior against real operational needs, ensuring the system ran effectively prior to deployment.

IT Support Intern | PT Globalnine Indonesia

October 2024 – December 2024 • South Tambun, Bekasi

- Performed functional (blackbox) testing on the company's internal web applications.
- Tested system workflows, validated input fields, and executed error-scenario testing to ensure application quality.
- Compiled structured test result reports and provided feedback to the development team.

Production Operator | PT Dharma Controlcable Indonesia

August 2022 – April 2023 • North Cikarang, Bekasi

- Operated production machinery in accordance with standard operating procedures.
- Maintained productivity targets and ensured consistent product quality throughout the production process.
- Prepared daily production reports to support operational monitoring.

Admin & Warehouse Technician Intern | PT Globalnine Indonesia

January 2020 – March 2020 • South Tambun, Bekasi

- Recorded and managed incoming and outgoing inventory in the warehouse.
- Monitored stock levels and prepared daily warehouse reports for management.

PROJECTS

e-Docking Control System (e-DCS)

A web-based warehouse docking management system developed at PT Oneject Indonesia using Laravel 11, PostgreSQL, React, and TailwindCSS. Contributed across the full development cycle including backend logic, frontend implementation, SAP integration, WebSocket real-time notifications, RBAC, and QR code ticket validation — serving both internal staff and external vendor portals.

Web-Based Warehouse Management Application with QR Code

Designed and developed a warehouse management system implementing Reed-Solomon and SHA-256 algorithms for QR code generation and data integrity verification. Built with PHP, MySQL, and JavaScript. (Case Study: PT Globalnine Indonesia)

Google Ads Campaign – Mega Harmoni Adventure (B2B Lead Generation)

Assisted in configuring, monitoring, and auditing a Google Ads Search campaign targeting B2B corporate clients in the Jabodetabek region. Achieved a CTR of 15.55% with an absolute top impression share exceeding 55%. Deliverables included a comprehensive audit report covering day-parting, audience profiling, keyword intelligence, ad evaluation, auction insights, and GTM conversion tracking validation.

CERTIFICATIONS

- BNSP – Software Engineer Level 6 (P1), 2025
- IBM SkillsBuild – Granite Models for Software Development, 2025
- IBM SkillsBuild – Using Generative AI for Software Development, 2025
- Coding Studio – Intermediate Data Science, 2024
- IBM – Python for Data Science, 2024
- Dicoding – Artificial Intelligence Fundamentals, 2024
- Dicoding – Front-End Web Development for Beginners, 2024
- Dicoding – JavaScript Programming Fundamentals, 2024
- Dicoding – Web Programming Fundamentals, 2024
- Cisco – JavaScript Essentials 1, 2024
- Cisco – Junior Cybersecurity Analyst Career Path, 2024
- Cisco – Introduction to Cybersecurity, 2023

SKILLS

Programming & Web Development: PHP, JavaScript, HTML, CSS, MySQL

Frameworks & Tools: Laravel, React, TailwindCSS, Git, Composer, XAMPP, Visual Studio Code, Vite

Testing & Analysis: Blackbox Testing, Functional Testing, UML, Flowcharts, Use Case Diagrams

Office Tools: Microsoft Office (Word, Excel, PowerPoint)

Soft Skills: Teamwork, Attention to Detail, Discipline, Adaptability

Language: English – TOEFL Score: 550 (valid until 2027)
